

UWOhn

— Packaging —

STRONG. RELIABLE. GLOBAL.

BUILDING STRENGTH. DELIVERING SOLUTIONS.

UWon Packaging is a young, dynamic, and rapidly growing manufacturing company, committed to delivering superior quality, innovation, and reliability in the FIBC (Flexible Intermediate Bulk Container) industry.

Established in 2020, UWon has quickly positioned itself as a trusted packaging partner for both Indian and global clients, offering scalable and export-ready bulk packaging solutions.

With a strong focus on engineering precision, modern infrastructure, and process-driven manufacturing, we ensure that every product meets international quality standards and performs consistently across demanding industrial environments.

Our approach combines advanced technology, skilled manpower, and strict quality control systems, enabling us to deliver high performance FIBC solutions across industries such as chemicals, cement, agriculture, food, and minerals.

We don't just manufacture, we build long-term global partnerships based on trust, consistency and performance.

400,000+
sq. ft. Facility

200,000+
Bags per Month

6,000+
MT annually

600+
Workforce

NOT JUST A BAG. A LOAD SYSTEM.

Crafted with precision and built to endure, this solution ensures reliable handling and consistent performance across a wide range of applications.

LIFTING LOOPS

Reinforced for safe and efficient handling

STRONG BODY

High-strength woven fabric for maximum load integrity

REINFORCED STITCHING

Double stitched seams for added safety and durability

REINFORCED BASE

Built to distribute weight evenly

MANUFACTURING STRENGTH

ADVANCED MANUFACTURING SETUP

State-of-the-art machines for weaving, extrusion, stitching and lamination.

SKILLED WORKFORCE

Trained professionals ensuring precision, safety and efficiency.

QUALITY CONTROL

Rigorous quality checks at every stage for consistent excellence.

LARGE-SCALE PRODUCTION FACILITY

Spacious infrastructure with streamlined workflow for consistent output.

PRODUCTION CAPACITY

High-volume capability to meet bulk orders with on-time delivery.

EXPORT READINESS

Export-standard packaging, palletized handling and global shipping ready.

ENGINEERED FOR SCALE.
BUILT FOR GLOBAL SUPPLY.

QUALITY IS OUR PRIORITY

At UWon Packaging, quality is not just a standard, it's our promise. From raw material selection to final delivery, every step is carefully controlled, tested, and certified to deliver FIBC solutions you can rely on.

PREMIUM QUALITY

Carefully sourced raw materials and stringent quality control at every stage.

HIGH LOAD CAPACITY

Engineered for superior strength and safe bulk handling.

DURABLE & TEAR-RESISTANT

Built to perform in the toughest industrial conditions.

CONSISTENT RELIABILITY

On-time delivery and quality you can depend on, every time.

Our certifications reflect our unwavering commitment to quality, safety, environment, and customer satisfaction.

INDUSTRIES WE SERVE

Our FIBC and bulk packaging solutions are trusted across industries for their strength, safety, and reliability.

AGRICULTURE

Safe packaging for grains, seeds & feed.

CHEMICALS

Secure storage with leak protection.

CEMENT

Strong bags for construction materials.

FOOD

Food-grade packaging for safe storage.

MINERALS

Secure handling of minerals & ores.

PHARMACEUTICALS

Clean, contamination-free packaging.

POWDERS & GRANULES

Smooth flow & safe storage.

PLASTICS & POLYMERS

Reliable packaging for plastic materials.

One Solution. Many Industries.

Delivering high-performance bulk packaging solutions tailored to your industry needs.

FROM RAW MATERIAL TO DELIVERY

RAW MATERIAL

High quality polypropylene ensures maximum strength and durability.

WEAVING

Advanced looms weave strong fabric for superior performance.

STITCHING

Precision stitching with high-strength threads for leak-proof construction.

FINAL PRODUCT

Tested, inspected and packed FIBC bags ready for global delivery.

READY FOR DELIVERY

Securely packed and shipped worldwide with reliability you can trust.

TECHNICAL SPECIFICATIONS

Designed for maximum safety, durability, and performance with customizable options to suit diverse load and application requirements.

SAFE WORKING LOAD

500 kg to 2000 kg

TOP OPTION

Filling Spout / Open Top / Duffle Top

BOTTOM OPTION

Discharge Spout / Flat Bottom

LOOP OPTIONS

Cross Corner / Side Seam / Sleeve

FABRIC

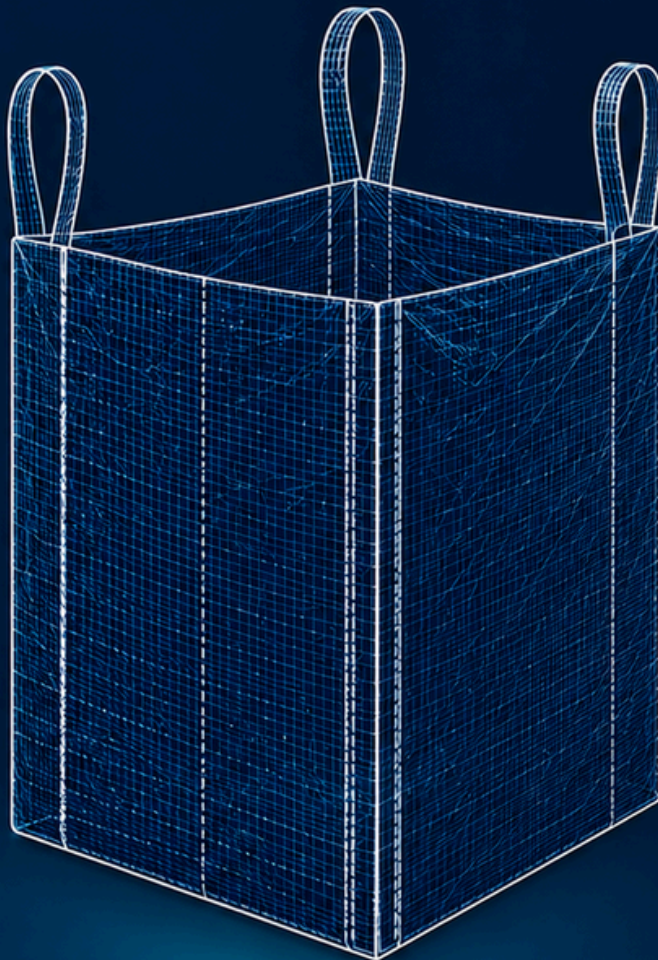

Virgin PP Woven Fabric

LAMINATION

Coated / Uncoated / Laminated

SAFETY FACTOR

5:1 / 6:1 as per requirement

STRONG & DURABLE
Engineered for Heavy Loads
